

RAJIB KUMAR SARKAR

Data Analyst | MIS Executive | Sales & CRM Operations

Bongaigaon, Assam 783384 | +91 60025 93605 | rajibsarkar9577@gmail.com | Open to Relocation

Portfolio: [rajib-portfolio-chi.vercel.app](#) | Languages: English, Hindi, Bengali, Assamese

PROFESSIONAL SUMMARY

Data Analyst and MIS professional with 3+ years of hands-on experience in Advanced Excel, MIS/KPI reporting, and process automation, plus a self-built portfolio of six production-grade data and CRM applications using React, TypeScript, SQL, Firebase, and Google Apps Script. Skilled at turning raw operational and sales data into dashboards, forecasts, and automated reporting workflows. Strong background in back-office administration, stakeholder reporting, and independent project delivery, with a demonstrated ability to learn and apply new tools quickly (SQL, Power BI, Python, AI-assisted development).

CORE SKILLS

- Data Analysis & Reporting:** Advanced Excel (XLOOKUP, INDEX/MATCH, SUMIFS, SUMPRODUCT, PivotTables, Data Validation, Conditional Formatting), MIS Report & Dashboard Development, KPI Scorecards, SQL, Power BI (Basic), Python for Data (Basic), Data Cleaning & Visualization
- Sales & CRM Operations:** CRM Systems, Lead Management & Scoring, Pipeline/Funnel Analysis, Territory & Channel Partner Tracking, Sales Forecasting, Area Sales Manager Operations, Real Estate Sales Analytics
- Back Office & Administration:** Data Entry, Record & Vendor Management, Scheduling, Stakeholder Reporting, Process Documentation, Customer Service, Payroll & Attendance Administration
- Technology & Automation:** React 18/19, TypeScript, JavaScript, Firebase/Firestore, Google Apps Script, Recharts, Tailwind CSS, Multi-Tenant SaaS Architecture, CSV Data Processing
- AI & Productivity Tools:** AI Workflow Automation (Claude, ChatGPT, Gemini, Copilot), Prompt Engineering, Microsoft Office (Excel, Word, PowerPoint, Outlook), Google Workspace (Sheets, Docs, Apps Script)

PROFESSIONAL EXPERIENCE

MIS & Data Analyst — Freelance / Self-Employed May 2022 – Present

Bongaigaon, Assam

- Designed and maintained MIS tracking systems in Advanced Excel for 15+ clients, covering fee records, attendance logs, and monthly performance reports — reducing manual tracking time by 40%
- Produced structured MIS reports and Excel-based dashboards used for monthly performance reviews and decision-making
- Managed end-to-end back-office operations including data entry, scheduling, record management, and stakeholder reporting for non-technical clients
- Automated document preparation and reporting workflows using Claude AI and ChatGPT, cutting reporting time by ~40% and improving MIS summary accuracy

Independent Data & CRM Systems Builder — Self-Directed Projects 2023 – Present

Remote

- Designed a 10-sheet Real Estate Sales MIS Dashboard (212 live formulas) covering territory performance, lead funnel, team KPIs, and inventory across 12 projects and 10 sales executives, for Aashta Vinayak Group
- Built a Google Apps Script automation system for instant high-value lead alerts, daily follow-up reminders, and weekly pipeline reports — eliminating 100% of manual reporting
- Developed two multi-tenant CRM/sales-forecasting web applications (React, TypeScript, Firebase) with real-time sync, lead scoring, and AI-assisted lead routing

KEY PROJECTS

PropFlow — Enterprise Real Estate CRM & Revenue Operations SaaS

React 19, TypeScript, Firebase Firestore, Express.js, Gemini AI | [propflow-7890.vercel.app](#) | [github.com/sarkarrajib6000-sudo/Propflow_7890](#)

- Built a multi-tenant SaaS CRM with real-time Firestore sync (sub-100ms updates), tenant data isolation, and role-based persona simulation for enterprise real estate operations
- Integrated Gemini AI for automated lead routing and welcome-message drafting, plus automated SLA escalation and payment-ledger overdue tracking across 6 core modules

AeroSales — AI-Powered Sales Analytics & Forecast Dashboard

React, TypeScript, Vite, Gemini AI, Recharts | sales-analytic.vercel.app | github.com/sarkarrajib6000-sudo/sales-analytics-dashboard

- Built a client-side analytics platform converting transactional CSV data into KPI dashboards, a 6-month AI sales forecast, and a growth-initiative simulator with adjustable risk profiles
- Integrated a live Gemini AI insights engine generating trend, risk, and tactical-recommendation cards directly from uploaded sales data

Ares Sale Manager — Sales Pipeline & Forecasting CRM

React 18+, Tailwind CSS, Firebase Firestore / ares-sale-manager-631037741637.asia-southeast1.run.app

- Built a Kanban-style Opportunity Board managing deals across 5 pipeline stages with full CRUD lead lifecycle management and a stage-weighted Sales Forecast Engine
- Developed a Performance Analytics leaderboard with Google Sheets sync and real-time notifications using React hooks backed by Firestore

Cloud-Based CRM Web Application — Godrej Properties (Practice Project)

HTML, CSS, JavaScript, Google Apps Script, Chart.js | sarkarrajib6000-sudo.github.io/Godrej-crm

- Built a CRM dashboard tracking leads, bookings, and sales performance with live Google Sheets data sync and Chart.js KPI visualizations, deployed on GitHub Pages

Employee Attendance & Salary MIS (Payroll System)

Excel | 7 Sheets | 20 Employees | 511 Live Formulas
